HTH Worldwide Ranked Number 435 Fastest Growing Company in North America on Deloitte's 2008 Technology Fast 500

***Attributes proprietary database and technology for its
296 Percent Revenue Growth***

November 12, 2008 (Radnor, PA) — HTH Worldwide, a global health and safety services company, today announced that it ranked number 435 on Deloitte's 2008 Technology Fast 500, a ranking of the 500 fastest growing technology, media, telecommunications and life sciences companies in North America. Rankings are based on percentage of fiscal year revenue growth over five years, from 2003–2007. HTH Worldwide grew 296 percent during this period.

HTH Worldwide President and CEO Angelo Masciantonio says the company's proprietary global database of physicians and new mobile technologies such as mPassportSM are major reasons for the company's 296 percent revenue growth from 2003–2007. "At our core, we are focused on developing easy-to-use, intuitive technologies and building what has become an incredibly robust global database of carefully selected doctors, hospitals and pharmacies," said Masciantonio. "However, we understand fully that in order to deliver optimum value to our customers we must surround this offering with a great client experience. Providing great service around our technology is what drives our growth."

"Deloitte's Technology Fast 500 recognizes companies who have achieved extraordinary growth in North America's most innovative and competitive market sectors," said Phil Asmundson, Deloitte LLP vice chairman and national managing partner for Technology, Media and Telecommunications. "We congratulate HTH Worldwide on this significant accomplishment."

HTH Worldwide previously ranked number 323 on Deloitte's 2007 Technology Fast 500.

In addition to ranking on Deloitte's Technology Fast 500, HTH Worldwide ranked 21 on the Philadelphia Technology Fast 50, which is a ranking of the 50 fastest growing technology firms in Philadelphia.

Overall, companies that ranked on the 2008 Technology Fast 500 had growth rates ranging from 242 to 138,762 percent over five years, with an average growth rate of 3,043 percent.

Fast 500 Selection and Qualifying Criteria

The Fast 500 ranks the fastest growing technology, media, telecommunications and life sciences companies in North America. It is compiled from Deloitte's regional North American Fast 50 programs, nominations submitted directly to the Fast 500, and public company database research. Companies are selected based on percentage revenue growth from 2003 to 2007.

Entrants must own proprietary intellectual property or proprietary technology that contributes to a significant portion of the company's operating revenues or devote a significant proportion of revenues to research and development of technology. Using other companies' technology or intellectual property in a unique way does not qualify. Companies must be in business a minimum of five years, and they must be headquartered within North America.
