HTH Worldwide Launches Online Global Pharmacy Directory

Travelers Use Web, Mobile Devices to Locate Reliable Pharmacies

August 25, 2008 (Radnor, PA) – HTH Worldwide, a global health and safety services company, today announced it has launched an online global pharmacy directory. The directory captures the locations of hundreds of reliable stores in 225 popular destinations outside the U.S.

The directory enables world travelers in search of medications they can trust to look up a pharmacy's street address, phone number, business hours and credit cards accepted from their mobile phones or laptops. This service is available to members of HTH Worldwide's international insurance programs as well as subscribers to HTH's mPassportSM suite of global health and safety tools and databases.

HTH's worldwide community of contracted, English-speaking physicians helped to identify the facilities. All pharmacies in the directory have licensed pharmacists on staff and are conveniently located in areas typically frequented by international travelers.

"Travelers often need to treat common maladies or chronic conditions when they are in the middle of a leisure or business trip and want to find medications they can trust," said Frank Gillingham, M.D., HTH Worldwide's Medical Director. "With the global pharmacy directory, HTH has developed a convenient and reliable way to put this information into the palm of their hand."

To help manage medical problems large and small, HTH provides its members and subscribers with an international translation tool for prescription and over-the-counter brand-name medications as well as searchable global databases of carefully selected physicians, hospitals and walk-in clinics. World travelers can purchase individual travel health insurance products with these services at www.hthtravelinsurance.com or they can subscribe to HTH's global databases at www.mpassport.com.

About HTH Worldwide

HTH Worldwide provides health insurance plans and global medical assistance services for business and leisure travelers as well as students abroad. HTH programs are distinguished by a contracted community of hospitals and doctors in 180 countries. HTH combines its health and safety research, advanced Internet applications, and extensive experience in designing and delivering international health insurance plans to ensure customers' health, safety and peace of mind. HTH was recently named one of North America's fastest growing companies in Deloitte's Technology Fast 500. For more information, visit www.hthworldwide.com.
