mPassport® Paris Released

New iPhone App from HTH Worldwide Helps Travelers Navigate Healthcare Services in City of Lights

November 9, 2009 (Radnor, PA) — HTH Worldwide, a global health and safety services company, announced today that it has launched **mPassport® Paris** - a new iPhone application for finding quality healthcare services abroad.

mPassport® Paris is now available in the [iTunes App Store](#) for downloading onto 50 million iPhones and iPod Touches around the world. The first in a series of applications covering world capitals, mPassport Paris features:

- Detailed profiles of nearly 100 carefully selected English-speaking physicians and dentists
- An appointment scheduling function that helps travelers arrange office visits with these practitioners on short notice
- iPhone's mapping and GPS functionality to help visitors to Paris find the shortest route to convenient care.

Every year more than two million Americans visit France.

iPhone users can use mPassport to conveniently contact HTH's concierge service to request an appointment with a specific doctor or within a medical specialty. mPassport also maps and profiles notable hospitals and pharmacies and provides brand name equivalents for over 350 prescription and over-the-counter drugs. Built in translation tools with audio allow users to play hundreds of key medical terms and phrases in French.

HTH also maintains an mPassport mobile web site at [mpassport.com](#) where subscribers can access these features on a worldwide basis.

About HTH Worldwide

HTH Worldwide provides health insurance plans and global medical assistance services for business and leisure travelers as well as students abroad. HTH programs are distinguished by a contracted community of over 6,500 hospitals and doctors in 180 countries. HTH combines its health and safety research, advanced Internet and mobile applications, and extensive experience in designing and delivering international health insurance plans to ensure customers' health, safety and peace of mind. HTH was recently named one of North America's fastest growing companies in Deloitte's Technology Fast 500. For more information, visit [www.hthworldwide.com](#).
